THE SENSUOUS TOUCH

SENSE THE SOUND OF SILENCE

Merge in a sensuous touch of miraculous switches!

A sway of movement that feels the absolute pleasure of having the best touch of your life.

The noise of 'Tik-Tok, Tik-Tok' is the past. Nowadays, modernization demands mechanism for excellence in silence.

Here comes the realization of the beauty hidden in the mystical voice of silence.

Something craved by large, something we fix at little.

And for this the finest element of the mechanism is procured in modern design. Formal, bold & black look refined is yet found ambitious as it has evolved up with a glimpse of Black Beauty into a Style Statement for every home or offices.

BACKGROUND

We are in a world where comfort is essential than anything else. It's all about 'If something can be done very easily then no one is interested in the ways that are toughest throughout and time-consuming as well.'

With the time passing by, technology upgradation and advancement took place. There have been changes in the preferences of people. Taking an instance, 'when a new house is bought or the older one is renovated, the first step lay down is to get the trendy & modern interior and the equipment that are tech-friendly and time-saving too.

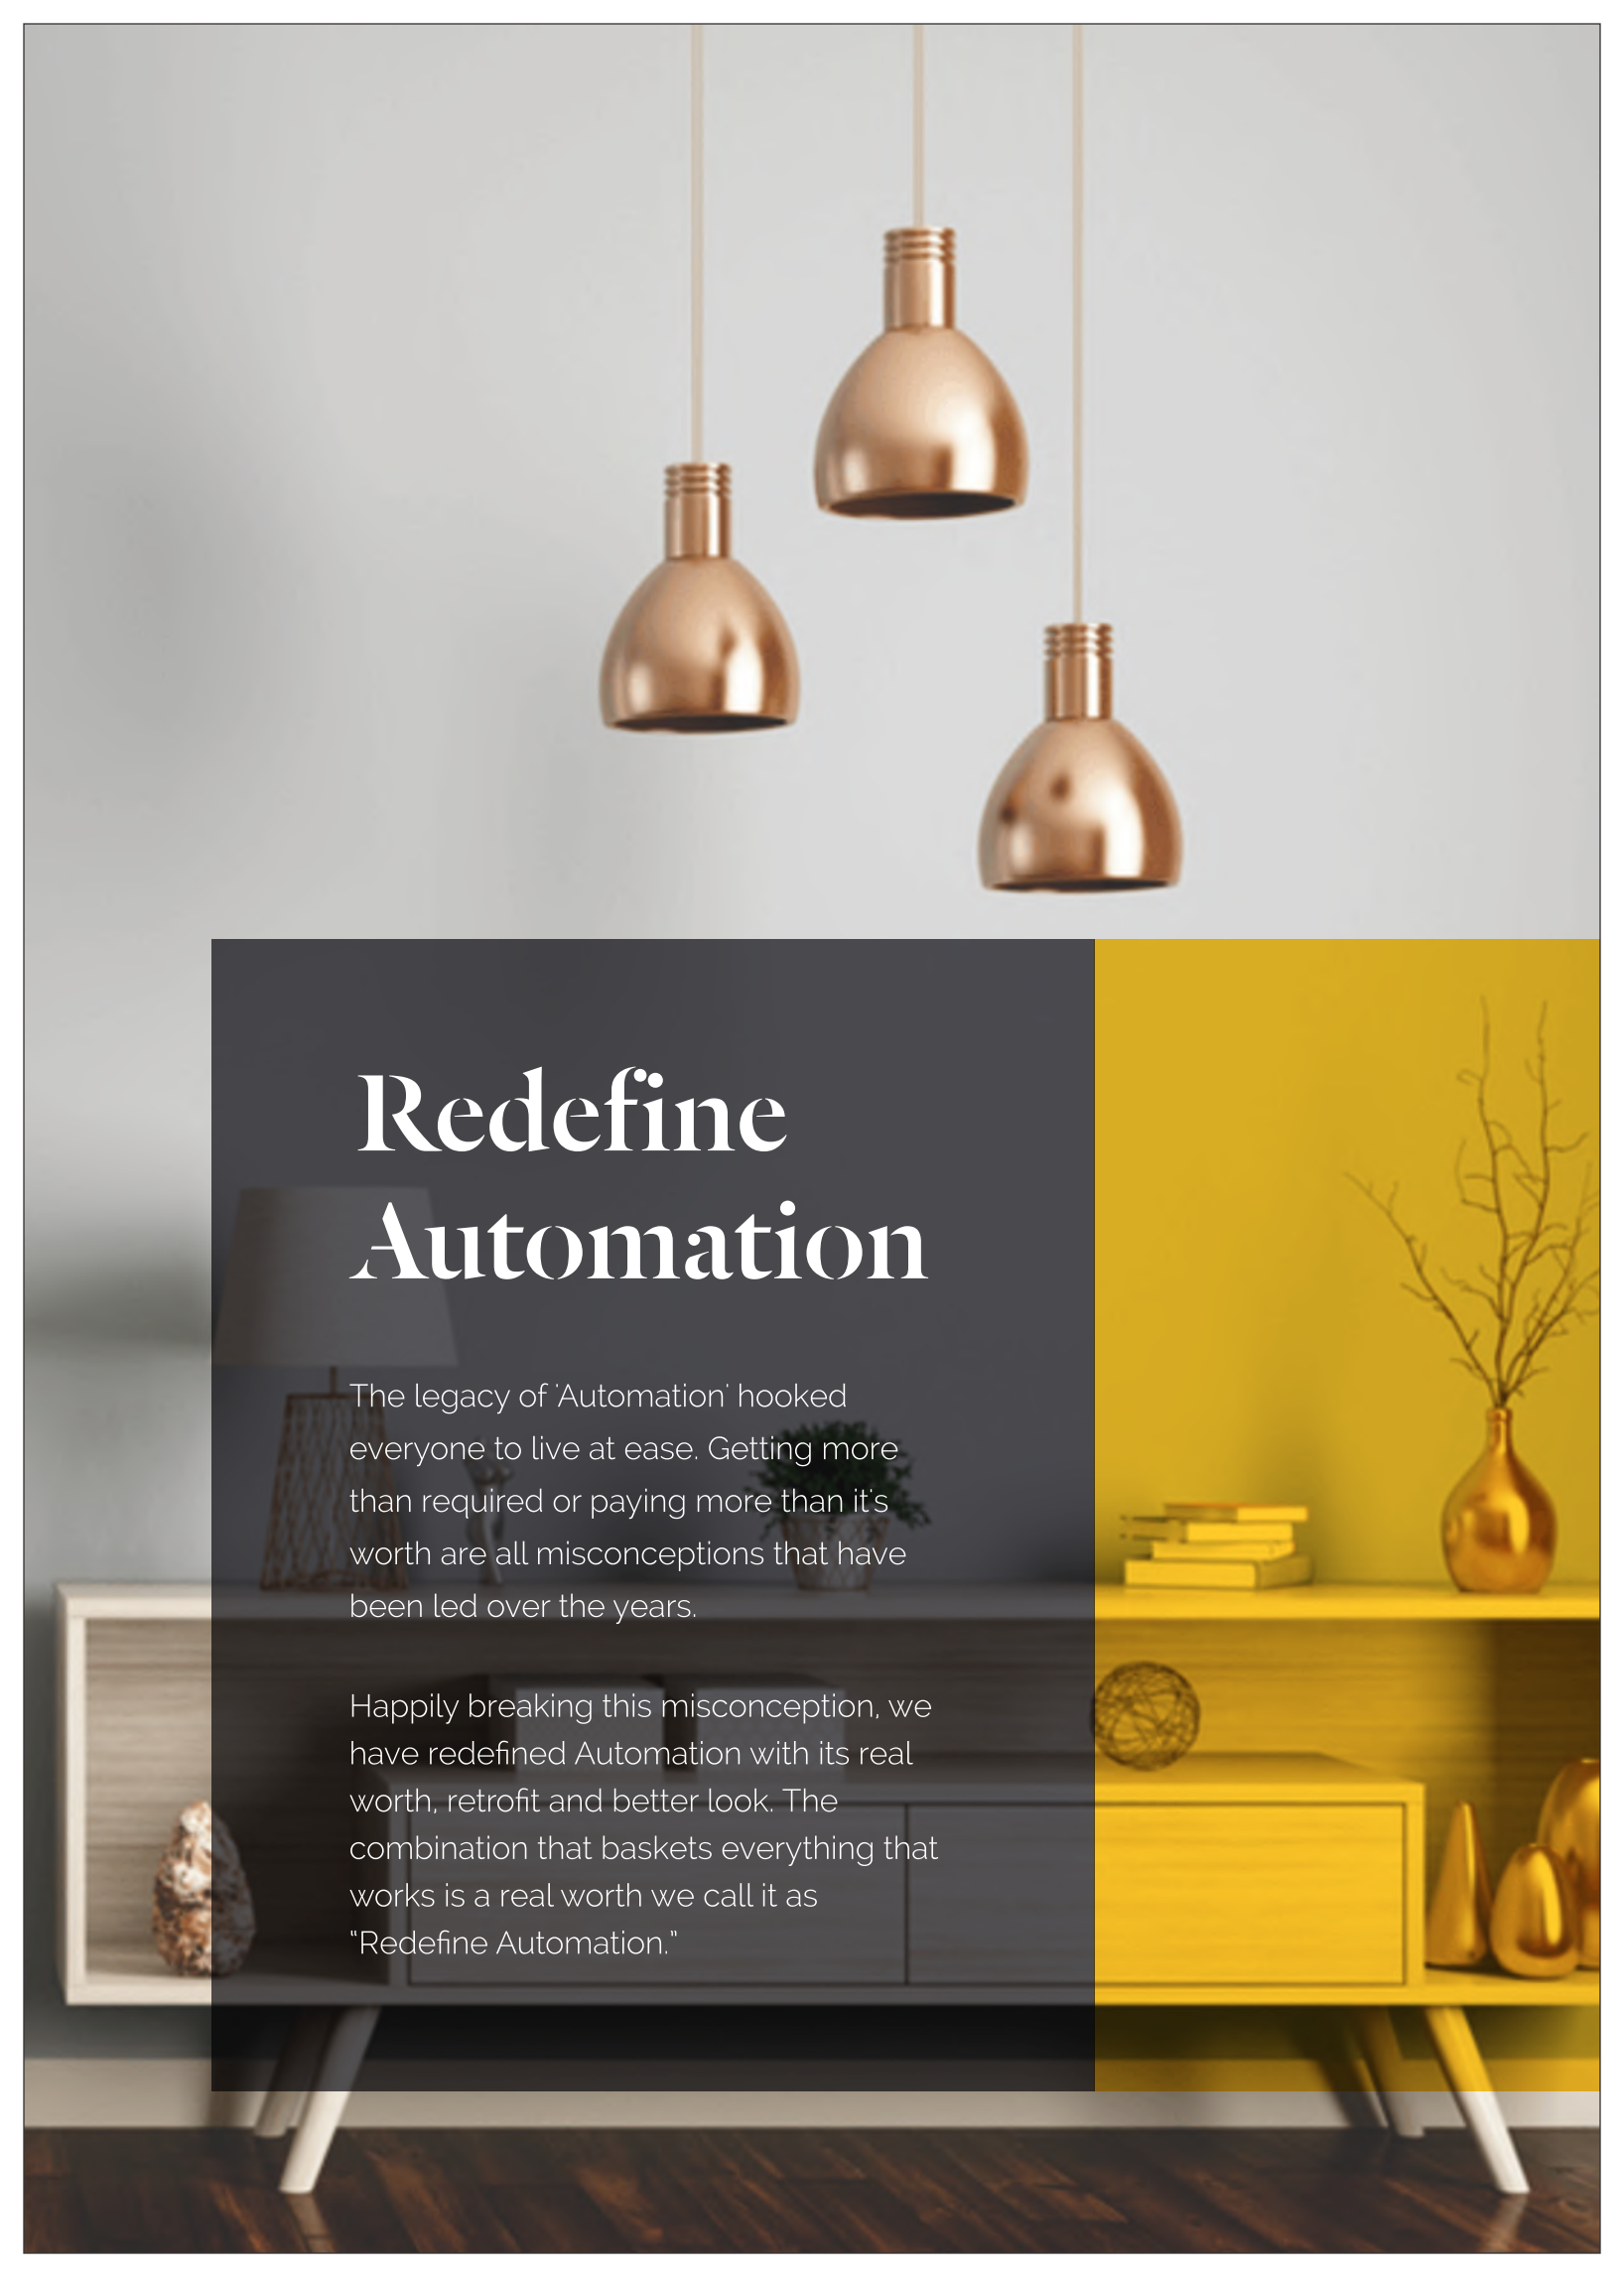

When the world is moving towards the automation, we have paced ourselves even strongly by redefining the automation with the statement of beauty.

Home Automation, is one of the modern ways that implies the socket requirement for each product and its price is way ahead to become everyone's cup of tea.

To affirm the best option in terms of compatible features, price and ultra-modern look as well, Redefined Automation with Smycrogrip switches brings you the ultimate solution that adores your home with Black Beauty.

It's time to say Bye Bye Tik-Tok Modular Switches with its socket area and to welcome the New Sensuous Touch with Smycrogrip Switches.

Redefine Automation

The legacy of 'Automation' hooked everyone to live at ease. Getting more than required or paying more than it's worth are all misconceptions that have been led over the years.

Happily breaking this misconception, we have redefined Automation with its real worth, retrofit and better look. The combination that baskets everything that works is a real worth we call it as "Redefine Automation."

Mostly, people go where the trend-setter world go. But exceptions are there who desire for huge interest in passion, underwent experiences and learned maturity for their vision to brighten one day.

After studying the need of the industry well, Smycrogrip has evolved up with a specific joint venture of well-known S-grip and profound Mycrofine Group.

Intensive Market Research with utmost precision by the best technical team who altogether designed the best solutions, these two famous group has come up with revolutionary products staying perfect choice for today's homes & offices.

Knowing the advantages of technology up-gradation & advancements, the group offers the series that can be a perfect fit for any space. Applying enriched 5 Years of learnings, the best of infrastructure and in-house facilities. And to the ultimate choice of people at large, we endow their faith on us by offering those products that are quality check passed.

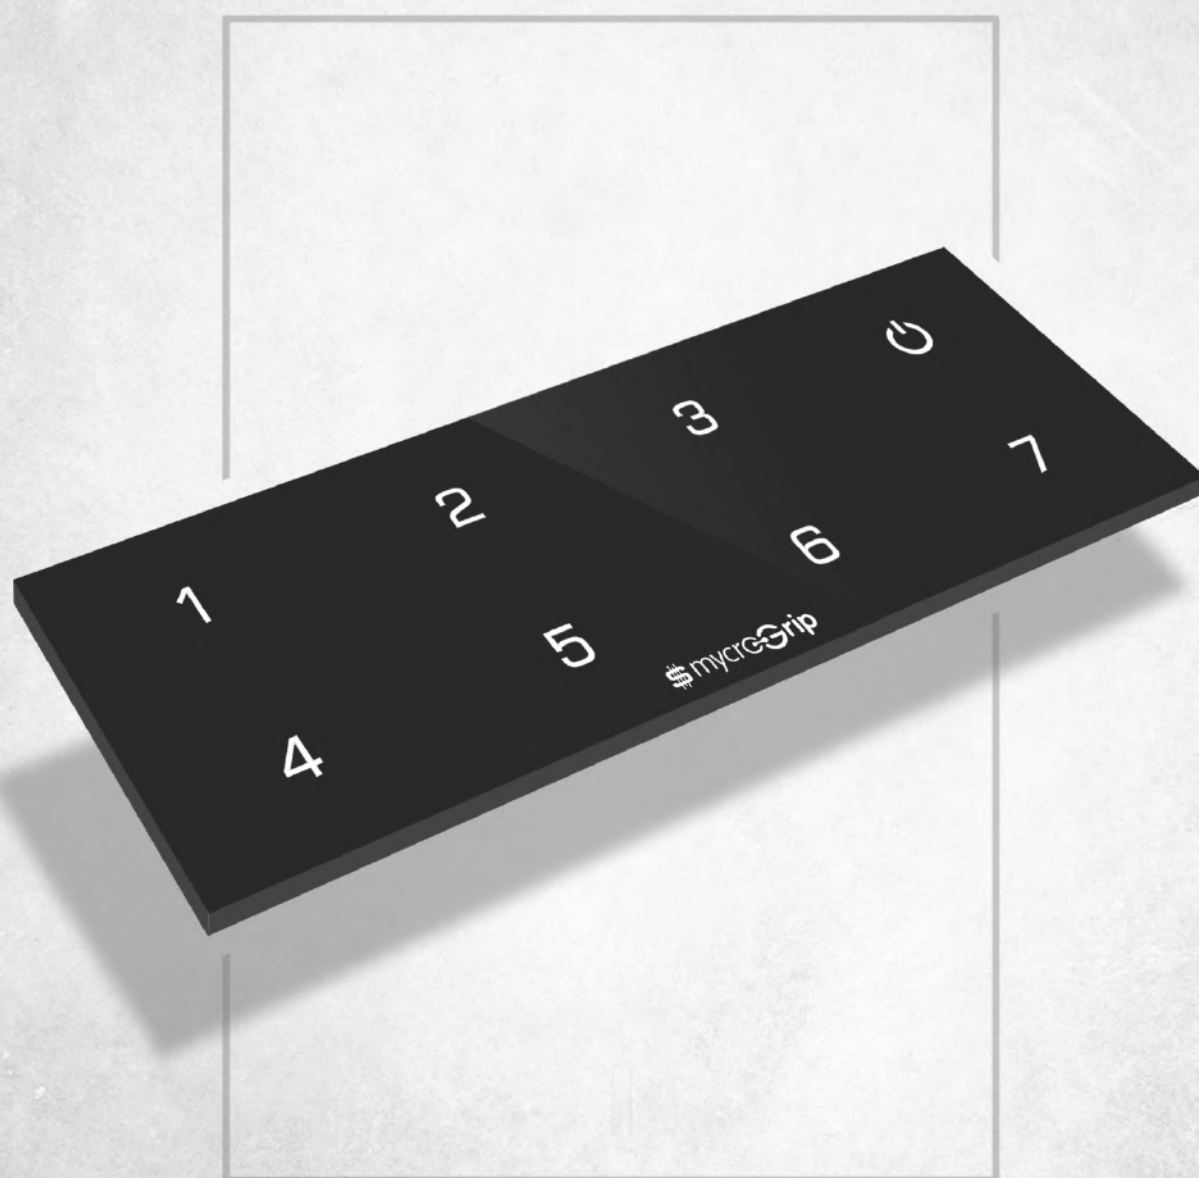

Redefine Fascination
